Electronic Door Lock

Security and accountability is important which is why we strongly recommend all owners install electronic door locks. The system we have chosen is efficient, secure and effective and uses an electronic pin pad based lock that grants access through a time sensitive code.

Access codes are generated through a high security server on the internet. Any transaction that takes place on the system can be traced leaving a virtual fingerprint of everyone who enters the unit. In addition, the code is time specific, opening on the arrival date and expiring on the departure date.

- Current price*: \$455/lock
- Installation**: \$175-\$200 Maui and \$250 for Kauai
- Extra plates (depending on dead bolt placement) or additional parts+: \$25/pair of plates (if required)
- Freight ** \$25 for Maui and \$45 for Kauai
- + Sales tax (4.167%)

As an incentive, CRH will pay \$150 of the cost of the electronic lock. (only applies to full service contract)

* Yearly service fee from Kaba of \$42

*If you have a Kaba lock but we need to change the cylinder to match our master, the cost is \$37.31 for the cylinder plus \$85 installation and preprogram.

*prices subject to change without notice- please confirm with your account manager.

*Kauai is subject to slightly different rates that Maui due to independent locksmith's who may have different charges; please check with your account manager regarding the exact cost.
